Day 18/180 Function in C++

1. Find the cube of a number using Function.

2. Reverse a number n using Function, Constraints:
   -5000<=n<=5000

3. There are three numbers a,b,c. Put the value of a into b, put value of b into c and put value of c into a. Do it using Function.

4. Swap 2 numbers a, b without using extra variables. Range of -10000<=a,b<=100000.

5. Print "Hello Coder Army" n times using Function.

6. Given two numbers n, r. Find nCr (Combination). Use Function here.
